

## IT'S TIME TO 'GET YOUR VOTE ON' FOR CAESARS

After careful deliberation the GameOn judging panel has chosen the 10 GAME ON finalists. Voting is now open and GT Business wants your help in voting for **Caesars**. This deserving business could be transformed by \$250k worth of Greentree business software and services including:

**\$125K Greentree business software**  
**\$75K implementation services**  
**\$50k free cloud hosting over two years**

Vote for Caesars: [www.greentreegameon.com.au/finalists/caesars](http://www.greentreegameon.com.au/finalists/caesars)

**Mark Gould director of GT Business** says "GT Business is really pleased to be associated with a finalist in the \$250,000 Greentree Game-ON promotion. Caesars are a family owned home furnishing business in Griffith NSW. It is tremendous that a regional based business who are closely involved in their community has a chance at winning this fantastic prize."

Caesars are no stranger to winning having being a recipient of the Resources Credit Union Business Community Award in 2006 and also being named Outstanding Business in 2009. Its customers can shop for furniture, carpets and other homemaking needs under one roof, and it wants to expand its services, and even franchise its business model in other regions.

"Normally when people buy carpets they tend to buy something else," says Financial Controller Sonia Callipari, "but at present we have no way of communicating between departments." Callipari would also like integrated payroll entry, better stock control and warehousing systems, and to enable customers to make payments online. "Greentree would streamline us," she says. "It would help us better serve our customers, in terms of knowing where they're at, and what service we can provide them with now and in the future."
